Hi All,

Might be best we do our discussion in this repository for this project :)

@IMOsbo I see you are working at the same time as me. I am regularly syncing your changes to my local repository so as not to get any conflicts.

Sounds good! I'm only working on my individual notebook right now so *hopefully* I won't cause any issues...

What format do we want to try to use for our paper citations? I'm thinking maybe IEEE format?

Works for me. Thanks for checking.

What's the plan for the paper?

Owner ...

Richard put together a rough outline (thanks Richard!) - I've just been trying to shoehorn my work into it as well as I can :)

We do need to figure out if figures count toward our page count? I'll reach out to Dr. Wallin tomorrow and see if that affects our length any (I'll be sure to copy y'all)... If they count, I'll get rid of some of my figures to give us some more room to write.

I plan on working on the Word Document this evening. I created a few visualizations display the bias and hope to add some details too.

It will be good to hear what Dr. Wallin is thinking regarding the paper - Thanks [@IMOsbo](#) for checking.

Who is going to submit the group project?

I can spend more time on it and then submit it to our drop box.

[@Hroge19007](#) I noticed that you uploaded some code to the old repository. We will be submitting this one to Dr. Wallin.

Also... do we need to create a PDF of this discussion and submit it as well? I guess I can read about it.
